Have you ever had someone in your career that has shown compassion and joy in the way they lead and asked yourself how you can grow in similar characteristics? I have, and know that working in an environment that embraces these values feels truly inspiring.

Today's guest shares with us how we can cultivate a practice of wholehearted librarianship to create an atmosphere in which others feel empowered and supported. Dr. Michael Stephens is an Associate Professor in the School of Information at San Jose State University and author of the book called *Wholehearted Librarianship: Finding Hope, Inspiration, and Balance*.

On this show he shares how we can have a profession that is compassionate, kind, and joyful – and find ways to develop a support network of kindred spirits to mentor new librarians in embracing this motivating style.
